

Paul Stearman — **Greenlight Connexions**

LED & Low Energy Lighting Consultants

Manufacturers Sales Agent

Newsletter: August 2012

Welcome to the first edition of the Greenlight Connexions newsletter. Each month I will bring you some updates from the companies I represent as well as information about LED & Low energy Lighting.

If you are viewing the newsletter on line, click on any picture or link below to go to a website

Companies Represented

Kosnic LED & Low Energy Lamps and Light Fittings

Mainline Mains Power Track using plug in 13amp Sockets

Retrotouch A Glass range of Light Switches, 13amp Sockets

Tansun Infra Red / Ceramic Instant Heaters

Kosnic SMD GU10 Lamp

Kosnic have a new Surface mounted Device (SMD) Lamp. This new fitted with a lens to control the amount of light and provide a wide angle 80 degree beam.

The SMD Lamp is available in 4w & 5w versions in both warm white 3k or daylight 6.5k.
5w = 40w Halogen
4w = 30w Halogen

Kosnic Specification Division

Following the success from exhibiting at the Facilities Show held at the NEC, Kosnic have set up a Specification Division. I will be heading up this division for Kosnic and will be contacting end users, facilities managers, contractors etc, to raise awareness of the range of Kosnic Lamps and Light Fittings.

Kosnic are now able to provide technical assistance to our customers.

Product Data Sheets,
IES / Photometric Files,
Product Images,
Cost of Ownership Details
Payback Calculators
Lighting Design Service

Kosnic Test Laboratory

Kosnic manufacture the majority of the products in their own factory. Products are designed at the Kosnic Technology Centre where state of the art instruments ensure the Kosnic products exceed the relevant product and safety standards.

A further technical testing station is being prepared at the Kosnic offices in Newbury and this will open later this month.

Mainline is a new innovative track-based mains power system that's adaptable and future-proof. It's the smart, simple and

Tansun, pioneered the concept of infrared electric outdoor heating

technology 30 years ago, and maintains an unrivalled reputation as world leaders in the development of indoor and outdoor quartz electric heaters,

effective way to deliver mains power right where people need it, at any point, at any time. Once the Mainline flexible power track has been installed, anyone can simply and safely add and reposition new sockets when needed!

Tansun is a well established brand manufactured to the very highest international standards in our own modern **UK factory**

Retrotouch is the home of the best looking and functioning retrofit and remote light switches, plug sockets, wiring accessories, hidden audio system, thermostats and hotel room systems .

Simply speaking the best light switches and designer-look electrical products at affordable prices.
